## COX CRITICIZES CALIFORNIA NEWS PAPERS IN ADDRESS

Says They Are Controlled by Senatorial Oligarchy

PRESENTS HIS GOSPEL OF PROGRESS

SAN DIEGO, Calif., Sept. 20.—Charges of a biased press were made by Governor Cox of Ohio, Democratic presidential candidate in addressing a large audience here today.

A great many reactionary papers are not printing the news (of the campaign) Governor Cox asserted.

"They decline to have this case tried before the jury. Nineteen-tenths of the newspapers in California do not print the news."

"One of the deliberate plans of the senatorial oligarchy," said Governor Cox, "was to control all newswires as possible."

The general charge was supported by the governor with particular criticism of the Pacific northwest states which he visited recently and of California papers.

Presents Gospel of Progress

The governor presented what he termed his "gospel of progress and peace among men," to a large theatre audience. Hundreds were turned away.

Governor Cox reiterated that he intended to enforce prohibition. Stating that Pacific northwest newspapers had tried to divide progressivism and the liquor question, he shouted "the eighteenth amendment has been adopted; it's going to be enforced," stamping feet while the audience applauded.

Featuring the league of nations he elaborated for the first time on the reservations offered in the Senate by Senator Hitchcock, Democrat, Nebraska, administration leader, and also read a portion of President Wilson's letter to Senator Hitchcock, approving the Nebraskan's reservations. This, Governor Cox said, refuted the charges that the president demanded ratification "without the crossing of a 't' or the dotting of an 'i'."

Monroe Doctrine Protected

The Monroe Doctrine was protected, Governor Cox said, by the Hitchcock reservations, declaring it would not be impaired.

Another Hitchcock reservation, the governor said objections of those who declared the British empire would have six votes to America's one.

"If Canada has a dispute, she cannot sit and only one vote would be accorded to England and all her colonies," said the governor, explaining the reservations in operation.

The governor reiterated that he would accept reservations which would "help clarify and reassure, but not those which emasculate or nullify," and cited reports of submission by Poland of disputes to the league and by Sweden and Finland on the Aland Island controversy as evidence of the league's success.

WATKINS SAYS LIQUOR QUESTION IS VITAL PROBLEM

Many Thirsty Residents Will Fully Agree With Him

WANTS LEAGUE BUT NOT WILSON'S

CHICAGO, Sept. 20.—Aaron S. Watkins, prohibition party candidate for president in what was announced as the only extended speech in Chicago during his campaign, tonight declared that the liquor question "still was the most vital problem before the American people," urged support for a league of nations, but "not for the Wilson league," and advocated a fair tribunal with public represented on it to settle disputes between capital and labor."

"There has been a great deal of misunderstanding concerning the league of nations," said Mr. Watkins. "The arguments against a league are very much the same as those used a hundred years ago against the adoption of the constitution of the United States. We must remember the statements of General Washington against entangling alliances are entirely irrelevant today because of the changes in circumstances of the world. We don't want the Wilson league—the plan of 'Pike's Peak or bust' with no reservations—but we do want some sort of federation of nations."

WINS DENVER-PUEBLO AUTOMOBILE RACE

Pueblo, Colo., Sept. 20.—The car driven by W. A. Coleman won the Denver-Pueblo automobile race which opened here early this afternoon. The time was 2:04:40. Horace A. Frantz was second and Jack Martin, third.

## MILLERAND HAS CONSENTED TO ACCEPT PRESIDENCY

Decision Came After Hours of Conference With Briand

## DON'T WANT TO CHANGE CONSTITUTION

PARIS, Sept. 20.—(By The Associated Press).—Premier Alexandre Millerand agreed today to be a candidate for the presidency to succeed President Deschanel, who has tendered his resignation.

M. Millerand's acceptance as a candidate for the presidency has virtually solved the presidential crisis as it is conceded by all sides in the chamber of deputies and senate that his election is foregone conclusion. He would receive more than 700 votes, no other candidate officially entering the field.

The premier's opponents have decided to refrain from voting and expect to muster about 100 blank ballots.

## DECISION NEW CABINET

The question uppermost in the discussion among the deputies and senators at present is the formation of the new cabinet to replace that headed by M. Millerand. At least two ministers of the Millerand cabinet are slated to go. M. Briand probably will become minister of foreign affairs with M. Jonnart as premier. Ex-President Poincaré's name has been mentioned as finance minister in place of Frederick Francois-Marsal, although there is strong opposition to M. Poincaré in the chamber, while he is popular with the senate.

M. Millerand's decision came after an hour's conference with M. Briand who openly said at the conclusion of the meeting that he was working for M. Millerand and would ask his followers to work for him.

## DON'T TAMPER WITH CONSTITUTION

While the premier is the almost unanimous choice, there is strong opposition even among his most fervent supporters to any revision of the constitution. The slogan at Versailles will be:

"Elect Millerand, but don't tamper with the constitution."

M. Millerand formally announced his candidacy in a statement reiterating his declared policies. He expressed the belief that he could best serve as premier, but if parliament preferred him as president he would "not evade the call."

## COLBY NOTE HAS CAUSED DISCUSSION

Russian Editor Says Would Make Balfour Turn Green With Envy

Moscow, Sept. 20.—The note recently by Bainbridge Colby, the American secretary of state, to the Italian government regarding the Russo-Polish situation has been much discussed in official circles.

M. Stekloff, editor of the Izvestia, the Bolshevik organ, in an article in his newspaper, characterizes the note as a literary effort "calculated to make Mr. Balfour (Lord president of the British council) turn green with envy, and languishing rivalry between England and America in another field besides increasing naval armaments."

The writer defends the third international as legitimate propaganda in no wise differing in methods from the counter-propaganda employed in capitalist countries. He refutes the accusations that Russia is governed other than by the will of the workers, peasants and soldiers and declares that the majority of the republic they waged their warfare with never ending intensity until it finally culminated in the great Civil War and in that conflict the question was settled and the United States committed everlasting to nationalization.

"As well those ominous words? There is nothing elastic about absolute compulsion. Yet the constitution makes congress absolutely sovereign over America's decision as to war. Therefore what is the result? The covenant and the constitution clash."

## NO DECREASE IN BREAD PRICES

ATLANTIC CITY, N. J., Sept. 20.—As a result of the high cost of flour, high labor costs and transportation trouble there will be no decrease price of bread for the present, according to an announcement made at the opening session here today of the annual convention of the American association of the baking industry. It had been hoped that before this meeting was called to order we should be able to announce a reduction in the cost of bread to the people of the United States," said Gordon Smith, of Mobile, Ala., president in his annual address, "but there is no relief in sight at this time and we shall be fortunate if we are able to go ahead without a further advance in prices."

## BUT LITTLE CHANGE IN MACSWINEY'S CONDITION

London, Sept. 20.—Altho this evening than he was in the morning, there is no material change in Major MacSwiney's condition, according to the league bulletin issued at 10 o'clock tonight. He still is conscious. Mrs. MacSwiney said that her husband was able to say a few words to her this afternoon.

That was the unkindest cut of all—referring to Franklin D., the Democratic vice presidential candidate, as one-half of one per cent Roosevelt.

Just about the best political news item printed in many days

You can bank on the statement that while there is some confusion about the manner of selecting Republican electors in Illinois, that the proper way will be found and the 27 votes will be cast for Harding in November.

On the Chicago markets yesterday the price of hogs went up and the price of corn went down. Farmers can't understand this situation, which is exactly contradictory to the old theory.

J. Hamm Lewis is about the only public man who is very, very certain that a war between Japan and the U. S. is a certainty within the next four years. That will not be very popular campaign material for the Democratic candidate for governor.

Just about the best political news item printed in many days

is that the factions in the Illinois Republican party are about to bury the hatchet, at least so far as the fall campaign is concerned. It is an unpopular thing to oppose progressive development but when one reads so frequently of the death of aviators there comes the thought of the awful toll that is being paid in air mail development. The aerial mail is a special fad of the present postmaster general. He might well give more attention to some other parts of the service.

Women of New York acted wisely in refusing to punish Senator Wadsworth for his attitude on suffrage. The general record of a candidate should be given consideration rather than the attitude on any one given question. This is what the New York women evidently thought.

**PRACTICAL CHURCH WORK**

A school of instruction for voters was held in at least one Morgan county church during the past week. It is indicative of the times that a church should be used for such a purpose, gatherings in which the community is interested. As the church becomes the community center its influence and usefulness will increase.

There should be beneficial results from discussing election affairs and having men and women come into a better understanding of candidates and issues. In this particular instance, however, the purpose was not so much to discuss individuals or issues as the method of voting. Now that women share with men full suffrage responsibilities it is very essential that they become familiar with the somewhat complicated election laws.

**IT'S A BAD PRACTICE**

At a session of the city council Monday night several instances were reported of tractors with lugged wheels being driven over asphalt pavements. Certainly there is no excuse for subjecting the asphalt to this wear and tear. Jacksonville wants to extend all possible courtesy to both dealer and users of tractors, but the misuse of the asphalt pavements is not necessary in accomplishing this.

If there is no ordinance on the books covering the matter, one should be speedily passed.

**A MAN WITH SELF CONTROL**

A few hard kicks from the opposition and Senator Harding will get over the idea of treating his opponents with consideration and kindness, one of his friends said to me in the early days of the summer. The friends was indignant over some kind of an attack or other that had been made in a

Democratic newspaper upon the Republican candidate and he was hopeful that Senator Harding would retaliate in kind.

But the man who has preserved his good nature, has unruffled calm thru more than thirty years of dealing with both the business and political world, is slow to anger and if he has lost his temper for a single instant during his campaign, whatever the provocation for him to do so may have been, none of those intimately associated with him has mentioned it. He is constructed along different lines. He has a slant of mind that causes him to prefer to believe that more men are misguided than enlightened, and that in any event one who attempts to work an unwanted injury is himself worse injured than the one he attacks.

That does not mean that he would lie down supinely and submit to injustice if by doing otherwise he could correct it, but that he believes there are more important things whether in business, social or political life, than quarreling over matters which persons may differ. His intimate friends say that on occasion, Senator Harding has shown himself a fighting man. The occasions have been few, even so, when he has failed to have full control of his temper. He will give blows and take blows and smile the while.

**WOULD CHANGE THE ISSUE**

Is there any wonder that Gov. Cox is resorting to every device his ingenuity can conceive to divert the people from further discussion of the league?

He has become convinced in the way his speeches thus far have been received that the truth regarding the league, and what it means to American sovereignty in the United States becomes subservient thereto, has struck home in the minds of the people. The results in New Hampshire, Georgia and Maine confirm the candidate's fears. Regardless of political party the man who bases his appeals for support on a defense of the league is foredoomed to defeat. It may be that the Democrats of Georgia, and the other states of the solid south will not vote for Senator Harding, but it is a certainty that they will not give their ballots to Gov. Cox.

"Cox sees defeat staring him in the face unless he can tear himself loose from the encumbrance of the Wilson league. The campaign contribution talk is one of the pitfalls that Gov. Cox has contrived to turn public thought away from Wilsonism and the league. It will be followed by other artful subterfuges, successful just in proportion as Republican speakers and writers permit themselves to be guided into the channels of discussion arranged for them. Stick to the issues of Wilsonism and internationalism, and the Coxian diversions will die for the lack of publicity, the food upon which they thrive."

**Rippling Rhymes By Walt Mason****HOW MANY?**

The panic men forecasted has not yet cantered by; our flag is not half masted, and we are living high. What though the prophet rages throughout the heedless land. We're drawing princely wages, our work is in demand. We find the money growing upon the evergreens, when we are blithely going to work in limousines. Where once the guilders tickled, they now in rivers shine; how many have you picked, how many are in bribe? The times, so brisk and breezy, have lasted until now; and money's been so easy we fed it to the cow; and I am not predicting a dreadful time to come, or drearily inflicting a preachment out of plumb. But if you wake tomorrow and find the boom is dead, will you be forced to borrow before the week is sped?

For months you have been tickled, the dollars came so swift; how many have you picked, because of inborn thrift? How many have you carried to some safe banker's vault, while foolish spendthrifts tarried with grape juice and near malt? It is a time enchanted, when roubles grow like weeds; how many have you planted, how many helpful seeds?

**MRS. FRANZ IMPROVING**

Jacksonville friends of Mr. and Mrs. Charles Franz, who are at Rochester, Minn., where Mrs. Franz is at the Mayo Bros. hospital, will be glad to know that she is steadily improving. While in Rochester Mr. Franz has been advised of a lot of bad luck on his farm near Edina. That region was recently visited by a very severe storm. A part of his barn was blown away and the house was somewhat damaged. Corn was leveled to the ground and that which cannot be used for silage purposes will be a loss.

Our best investments are in character building. A modern "Y" is the greatest every day character building institution. Plan an investment to make possible such an institution in Jacksonville.

The nations are being called upon today to stand up and declare by what principles they mean to live. They are being called upon to show how much spiritual dynamic they have and how many sacrifices they stand ready to make for the sake of principle.

The government of this country is not at Washington. It has never been at Washington. The government is where the people are.

The court of last appeal is what the people think and feel and upon which they highly resolve. Therefore, the development of this finer quality of soul in every community, on the college campus, in the church, in the polling place and in the place of business, is an obligation that rests upon us all.

Without a line of publicity Buffalo sent 225 workers out for \$10,000. In four days there were 3,400 subscriptions pledged "according to Buffalo's established habit and record of eight years." The larger contributors receive Association men.

Bigger things in a religious and social way are done with Memphis young men thru a grouping of the 17 to 20-year-olds. Special privileges and lockers are afforded. Four years ago this unit was organized with 31; now it has 231. Young leadership for churches is developed in a large Bible class.

Crime among boys is due largely to the lack of religious training in public schools, according to a statement by County Judge J. G. MacMahon of New York City, made when trying three young men for burglary. "The nation without a belief in God is soon stranded," he asserted.

A new building for textile workers, costing \$50,000, is nearing completion at the plan of the Champion Fiber Co., Canton, N. C.

Trustees of a legacy left by a prominent citizen to Augusta, decided that much of this fund should be devoted to two buildings—one industrial.

Speculation has all the fascination and dangers of gambling. "Buy if you will," advised a friend years ago about a lumber project into which he was putting a good sum, "but don't put any more into it than you can afford to lose." Another said: "Never borrow to invest." And who is it wrote: "Henry, there are two times when you should not speculate. First, don't do it when you haven't any money. And be particular to be sure not to speculate when you have plenty of money." Liberty bonds, the savings bank, or a modest home are the best gilt-edged investments a young man can find. "Do I speculate? Not I," said a neighbor. "My father was a speculator—he made and lost many fortunes. He died in poverty and I had to support him and the family for years."

What will the charities do? The Bowery bum is becoming unknown, the 15c bed is spurned and the 50c and 35c are the only ones sought at the Salvation Army lodging house, while our Bowery Institute could not induce men to shovel snow from its walks at 75c an hour last winter.

**ASSOCIATION BOARD OF OLD PEOPLES' HOME MEETS**

The annual meeting of the Association Board of the Old Peoples' Home was held in Central Christian church Monday evening at 7:30 o'clock. The purpose of the meeting was to elect officers to fill the vacancy of those whose time had expired; also to elect some one to fill the vacancy caused by the absence of Mrs. Mildred Powell, who has gone to California for an extended visit. The following persons were elected for a period of three years: Mrs. Lillian King, Miss Mary Maher, Mrs. W. T. Clarkson, Mrs. Hull, Mrs. Richey, Mrs. Simmons, Mrs. Simmons, Dr. Charles Hopper. Mrs. William Osborne was elected to finish the term of Mrs. Mildred Powell, the length of which is two years. Dr. Hopper was elected to take the place made vacant by the death of Mr. Charles B. Graff.

is that while there is some confusion about the manner of selecting Republican electors in Illinois, that the proper way will be found and the 27 votes will be cast for Harding in November.

On the Chicago markets yesterday the price of hogs went up and the price of corn went down.

Farmers can't understand this situation, which is exactly contradictory to the old theory.

J. Hamm Lewis is about the only public man who is very, very certain that a war between Japan and the U. S. is a certainty within the next four years. That will not be very popular campaign material for the Democratic candidate for governor.

Woman of New York acted wisely in refusing to punish Senator Wadsworth for his attitude on suffrage. The general record of a candidate should be given consideration rather than the attitude on any one given question. This is what the New York women evidently thought.

## PRACTICAL CHURCH WORK

A school of instruction for voters was held in at least one Morgan county church during the past week. It is indicative of the times that a church should be used for such a purpose, gatherings in which the community is interested. As the church becomes the community center its influence and usefulness will increase.

There should be beneficial results from discussing election affairs and having men and women come into a better understanding of candidates and issues. In this particular instance, however, the purpose was not so much to discuss individuals or issues as the method of voting. Now that women share with men full suffrage responsibilities it is very essential that they become familiar with the same what complicated election laws.

## IT'S A BAD PRACTICE

At a session of the city council Monday night several instances were reported of tractors with lagged wheels being driven over asphalt pavements. Certainly there is no excuse for subjecting the asphalt to this wearing travel. Jacksonville wants to extend all possible courtesy to both dealer and users of tractors, but the misuse of the asphalt pavements is not necessary in accomplishing this.

If there is no ordinance on the books covering the matter, one should be speedily passed.

## A MAN WITH SELF CONTROL

"A few hard kicks from the opposition and Senator Harding will get over the idea of treating his opponents with consideration and kindness," one of his friends said to me in the early days of the summer. The friends was indignant over some kind of an attack or other that had been made in a

Democrat newspaper upon the Republican candidate and he was hopeful that Senator Harding would retaliate in kind.

But the man who has preserved his good nature, his unruffled calm thru more than thirty years of dealing with both the business and political world, is slow to anger and if he has lost his temper for a single instant during his campaign, whatever the provocation for him to do so may have been, none of those intimately associated with him has mentioned it. He is constructed along different lines. He has a slant of mind that causes him to prefer to believe that more men are misguided than are good, and in any event one who attempts to work an unwarranted injury is himself worse injured than the one he attacks.

The government of this country is not at Washington. It has never been at Washington. The government is where the people are. The court of last appeal is what the people think and feel and upon which they highly resolve. Therefore, the development of this finer quality of soul in every community, on the college campus, in the church, in the polling place and in the place of business, is an obligation that rests upon us all.

Without a line of publicity Buffalo sent 225 workers out for \$105,000. In four days there were 3,400 subscriptions pledged "according to Buffalo's established habit and record of eight years." The larger contributors receive Association men.

Bigger things in a religious and social way are done with Memphis young men thru a grouping of the 17 to 20-year-olds. Special privileges and lockers are afforded. Four years ago this unit was organized with 31; now it has 231. Young leadership for churches is developed in a large Bible class.

Crime among boys is due largely to the lack of religious training in public schools, according to a statement by County Judge J. G. MacMahon of New York City, made when trying three young men for burglary. "The nation without a belief in God is soon stranded," he asserted.

A new building for textile workers, costing \$50,000, is nearing completion at the plan of the Champion Fiber Co., Canton, N. C.

Trustees of a legacy left by a prominent citizen to Augusta, decided that much of this fund should be devoted to two buildings—one industrial.

Speculation has all the fascination and dangers of gambling. "Buy if you will," advised a friend years ago about a lumber project into which he was putting a good sum, "but don't put any more into it than you can afford to lose." Another said: "Never borrow to invest." And who was it wrote: "Henry, there are two times when you should not speculate. First, don't do it when you haven't any money. And be particular to be sure not to speculate when you have plenty of money." Liberty bonds, the savings bank or modest home are the best gilt-edged investments a young man can find. "Do I speculate? Not I," said a neighbor. "My father was a speculator—he made and lost many fortunes. He died in poverty and I had to support him and the family for years."

What will the charities do? The Bowery bum is becoming unknown, the 15c bed is spurned and the 50c and 35c are the only ones sought at the Salvation army lodging house, while our Bowery Institute could not induce men to shovel snow from its walks at 75c an hour last winter.

## ASSOCIATION BOARD OF OLD PEOPLES' HOME MEETS

## FINANCE ARTICLE IS WIDELY READ

George R. Martins Discussion on Foreign Investments Attracts Attention of Bankers.

In the Los Angeles Express an article recently appeared from the pen of George R. Martin relative to foreign investments. It is one of a series of financial articles which that paper is presenting. The following paragraphs from the Express indicate with what interest Mr. Martin's discussion of the somewhat difficult financial subject was received.

Mr. Martin is a grandson of the late Mrs. Frances Braun and began his banking career with F. G. Farrell & Co. During the war time he was with the Federal Reserve Bank at San Francisco.

A recent article by George R. Martin, manager of the bond department of the Security Trust and Savings bank, published in the Express educational series, has attracted nation-wide attention. The article was entitled, "Foreign Investment," and in addition to explaining the fundamentals of international finance it pointed out the important factors to be considered in the purchase of foreign securities.

Letters have been received by the Express from prominent bankers and financiers as far east as New York and north as far as Seattle. Several big newspapers and financial journals have reprinted the article in toto.

A prominent Seattle banker writes: "What do you think of the proposition to take bonds from the allied governments now indebted to the United States and to sell such bonds (with the guarantee of the United States), using the proceeds to retire Liberty bonds to a like extent?"

The question was submitted to Mr. Martin and here is his reply: "I cannot see any advantage in it to either the people of this country or to the government. Under such an arrangement I presume the present holders of Liberty bonds would doubtless have to be given the option of converting their bonds into the allied government bonds par for par. Offhand I would say that in my judgment:

"It would be unconstitutional for the United States government to guarantee the bonds of a foreign country. The most remarkable dramatic film ever put out, and cost over \$250,000.

May we not utilize the columns of this journal to assure music lovers that Ralph Dunbar's

is the last word in operatic production

To any other producer the proposal to present so splendid and elaborate a company and equipment would have been considered entirely and positively impossible, owing to the expense of transportation, the cost of securing artists of international renown who are capable of properly interpreting the difficult roles of Bizet's immortal masterpiece and the general financial burden incidental to such an enterprise. The assurance is convincing that multitudes hereabout, from having enjoyed others of Mr. Dunbar's offerings, are desirous of securing such productions for this city, thus affording them at reasonable cost means for life enrichment which have been rarely available.

Early plans for sitings will surely avoid disappointment. Seats are now on sale, subject to reservations by mail accompanied by check.

#### COUSIN OF GREAT GENERAL LAUDS PERFECT TONIC

Colonel Grant is anxious for public to know about the merits of Trutona.

Rockford, Ill.—When Colonel George E. Grant, cousin of General U. S. Grant, came from San Pedro, Cal., to Rockford recently to visit his daughter, a well-known Rockford woman, of 224 North First street, little did he know, that he was to find in this city, a medicine that would overcome troubles, from which he had suffered most of his life. But such has proven to be the case, and Trutona is the medicine, thru which Col. Grant, found almost unopposed relief, from his trouble.

Realizing that there are thousands of people, who suffer as he did, Col. Grant gladly authorized the following statements, when interviewed by a Trutona representative. Col. Grant says:

"Most of my life I have suffered from kidney trouble. I experienced such dreadful pains across my back and kidneys were so active that I was compelled to get up four or five times during the night. I was so nervous all the time, too. Why, I felt like I'd have to cry out at times. A nervous throat trouble left me with asthma, to some extent. My stomach was out of order, also. I digest my food. It would sour in my stomach, causing gas formations which pressed against my heart. This brought smothering spells, when I'd feel that I was going to choke. I was very constipated."

"I hope everyone, who is suffering, will give Trutona a trial, for I'm sure it will help them. My kidneys have improved so much, that I'm never disturbed at night, and I don't suffer the pains across my back, either. Trutona has strengthened my nerves, also. I notice that I sleep so much better at night. And my food—well, instead of souring in my stomach, it digests properly, and does me some good nowadays. Trutona has also regulated my bowels."

"In conclusion, I want to say, that I'm anxious for the public to know about the merits of this fine tonic, Trutona."

Trutona is sold in—Jacksonville at Cooper Drug Co., J. F. Shreve Drug Store; in Franklin at Wyle Drug Co., and also in Waverly at the Wyle Drug Co.

## MAC SWINEY IS NOT BEING FED

Officials Say If He Is They Don't Know It—Receiving Every Care From Government.

LONDON, Sept. 20.—The question whether Lord Mayor MacSwiney is being fed is answered by the one office, "if he is we do not know it."

In this connection it is pointed out that it would be virtually impossible for anyone to administer treatment without the attending physician becoming aware of it, and the government official argues, if the doctors ascertained that the lord mayor was getting any food whatever, the entire effect of his earlier starvation would be nullified.

The government physicians and nurses have done everything they can think of to induce MacSwiney to eat and if their efforts had met with any success the officials say they certainly would report it to the home office which they have not done.

The Evening News says it has a report from a trustworthy source that the lord mayor is far from being cheerful, was very sickly Sunday and disinclined to answer questions.

The paper adds, "he slept most of the night from 10:30 onwards his temperature 97, and pulse 46, and varied from weak to regular. During the night he had drunk some hot water. In the afternoon he was able to sit up in bed and be washed. He seemed to have sufficient strength to assist in process. He was able to talk a good deal and read newspapers with interest."

A number of women were in attendance at the meeting. The committee by a unanimous vote recommended Mrs. O. E. Tandy the chairmanship of the Woman's committee of Morgan county.

While she was not present it is believed she will accept the position and organize the Democratic women for the fall election.

WAUPUN, Wis., Sept. 20.—Officials at the state penitentiary were confronted with their first case of its kind when William Chouchick, former convict, "broke into prison" after having served his time and being dismissed.

Chouchick who was convicted of burglary was discharged September 8. He left the prison, but returned Saturday night. Using a rope he climbed over the wall and hid himself in the twinie factory.

Chouchick explained that during his imprisonment he has been working on a perpetual motion invention. He asserts that he has nearly perfected a theory and that he can complete it within two weeks' time.

#### Panama Canal Incident.

Once upon a time when Congress sought to allow American ships to pass thru the Panama Canal, built by American genius with American money to further American commerce and add to American defense and when we built that canal with the understanding that American ships were to pass thru free of tolls, pursuant to Democratic contract with the people as well as Republican covenant, the same president who brought us the league, begged congress and his own partisans to ignore their pledge because England objected that such action would violate the purport of an obsolete Clayton-Bulwer treaty.

He pleaded that the treaty's moral obligation flung absolute compulsion upon us to ignore our constitutional rights to rule our own destiny, and do as we chose with our own ships in our own canal. And the moral obligation won.

Who cares to say that this same sort of logic will not some day be used to plague an unwilling America into foreign war if we unreservedly subscribe to Article X, the constitution to the contrary notwithstanding.

"What I would like to say to

you who know so much of sacrifice and hardship is, we do not need any council of foreign powers to tell us how to play our part."

Had severe pains and attacks every ten days or two weeks and had to call a doctor, who could only relieve me for a short while. ## ILLINOIS COLLEGE TO OPEN WEDNESDAY

Opening Exercises Will be Held in Jones Memorial Building—Registration Indicates Largest Freshman Class in History of School.

The opening exercises at Illinois College will be held Wednesday morning at 9 o'clock in the chapel in the Jones building. All friends of the college will be cordially welcome. President Remmelkamp will, in accordance with the usual custom, deliver an address, and Mr. Quast, the new voice instructor at the Conservatory, will sing a solo. Some of the local pastors will also participate in the program.

The registration of students on Monday was unusually large and it seems likely that "Old Illinois" will have the largest freshman class in its history. All rooms in Crampton Hall have been taken and it has been necessary for the college authorities to provide an annex to Academy Hall to accommodate girls for whom there were not rooms at the Hall.

American League Will Ask Congress to Make Betting on Games Penitentiary Offense—Investigation of Alleged Scandal Begins Tomorrow.

Chicago, Sept. 20.—The American League will ask congress to enact a law at its next session making betting on baseball games a penitentiary offense. President B. B. Johnson said in a statement issued tonight.

President Johnson said the league would ask that this law be made as severe as possible and worded to eliminate all baseball pools.

Only in this way, he said, could gambling be definitely eliminated from baseball.

Mr. Johnson said the American League still was investigating charges of gambling in last year's world's series and expected to make public the results of its investigation within a short time.

The grand jury investigating charges of baseball gambling in the major leagues issued subpoenas for Mr. Johnson, President John Heydler of the National League, Jacob (Rube) Benton, a pitcher on the New York Giants and officials of the two Chicago major league clubs today.

The investigation will start Wednesday.

## PARIS CLEANERS

## GIVEN CLEANING

Defeated By Indees By Score of 9-3—Locals Hit Ball Hard—Hamm Pitched Good Game.

The Paris Cleaners of Springfield were given a cleaning by the Indees at South Side Park Sunday afternoon, the final score being 9 to 3 in favor of the Indees.

Hamm pitched a good game for the Indees, letting Springfield down with four hits. Until the seventh they were able to get but two safeties and one run is all that should have been counted off of him.

However, a little of the satisfaction of the victory was taken from the Indees by the fact that Dove was not on the mound for the Cleaners. The Indees had been hoping that he would come back again as they wanted revenge for the two defeats administered earlier in the season.

Had Dove been on the mound it might have been a different story, the locals hit the ball hard and we believe they would have beaten Dove the same as they did Schafrafin and Juell, Scott, Christopher and Clark lead in the hitting each getting two safeties. Scott hit one a mile into left center for three bases.

DeFrates also hit one hard into left field, but it was going so fast that Scott retrieved it and threw "Happy" out at second.

Every man on the team hit safely and taken it all in it was a most enjoyable afternoon.

How the Runs Were Made.

Jacksonville scored one in the first on Scott's two base muffed off Wheeler's fly. Fanning's infield out and Clark's single.

The Cleaners tied it up in the second. With two down Hamm hit Watling who stole second and came home on DeFrates' boot of Teeters' grounder.

Neither team was able to break the tie until the fifth when the Indees put the game on ice. Singles by Christopher, Riggs, Hamm, Wheeler and Clark, a stolen base, a base on balls and a walk put over five runs.

A double, single and a fielder's choice gave one in the sixth. Two in the seventh came on singles by Clark and DeFrates and Scott's triple.

A batter hit, two stolen bases and two singles gave the Cleaners two runs in the seventh. The score:

### MANY THEMES ARE DISCUSSED BY COUNCIL

Aldermen Talk of Divers Subjects Pertaining to City Affairs — Mayor Crabtree Indispersed — Ald. Moore Elected Mayor Pro Tem.

Many themes were discussed by the city council at the regular meeting held Monday evening. In the absence of Mayor Crabtree who was indisposed, the aldermen elected Ald. Moore mayor pro tem.

One of the main subjects of conversation was the matter of persons driving tractors over asphalt pavements. It was pointed out that owners and dealers in tractors can leave the city in any direction without driving over an asphalt pavement and without being compelled to detour.

#### Ald. Moore Mayor Pro Tem

When the clerk called the roll it showed all aldermen present except Ald. Ehnie and Williamson. Mayor Crabtree was absent because of illness and the clerk announced the first order of business was the election of a mayor pro tem. Ald. Moore was nominated and chosen by acclamation. The minutes of the last meeting were read and approved.

Ald. McGinnis reported that Patrick Hayes, president of the Trades and Labor assembly, had extended an invitation to the members of the council to attend a meeting at Labor Temple Thursday evening. The invitation was accepted on motion of Ald. Cain, seconded by Ald. Flynn.

Claims against the city were presented and all those properly approved were ordered paid.

Ald. McGinnis reported that in company with Mayor Crabtree and Engineer Henderson, a tour of the city had been made and dilapidated sidewalks located. He offered a motion that the clerk be instructed to advertise for bids for laying the walks and the motion carried.

Ald. McGinnis also reported that complaint had been made by citizens in the north part of the city of the breaking of street lamps by boys. The matters was referred to the police committee with power to act.

#### Accept Rotary Club Invitation

Ald. Cain in behalf of the Rotary club extended an invitation to the council to attend the meeting of the club Friday at which time the officials of the Chicago & Alton railroad will be here. The invitation was accepted and the council voted to attend the meeting in a body.

Ordinances for sidewalks on Ashland avenue and Myrtle street were given a first reading and laid over under the rules.

Ald. Chapin referred to some trouble that had occurred with a peddler the past week and asked the clerk to read a number of letters received by Mayor Crabtree relative to license fees in other Illinois cities.
